

Adéla Sodomová

Zürich, Switzerland | [Google Scholar](#) | adelasodomova@gmail.com | Updated: March 2026

Research Experience

Research Skills: qualitative research methods (grounded theory, IPA), quantitative analysis (programming in R, survey design in Qualtrics), conducting meta-analyses, systematic literature review, Natural language processing (NLP) and text analysis (Python, R); local and cloud-based LLMs (Llama, BERT-family models), collecting and managing participant data (digital and biometric data), guiding and debriefing participants after experiments, conducting semi-structured interviews, leading focus groups, academic and policy writing

University of Zürich, Professorship for Social Psychology Sept 2025 – July 2026

- Research assistant to Prof. Johannes Ullrich and Dr. Léila Eisner
- Conducting interdisciplinary literature reviews on a project regarding perceived malleability of political identities and temporal dynamics of political attitudes across the lifespan

Czech Academy of Sciences April 2025 – present

- Contributing to a meta-analytic project led by Prof. Sylvie Graf (University of Bern, UZH) focused on examining associations between intergroup contact and social norms
- Involved during the whole meta-analytic pipeline – conducted systematic coding, made eligibility decisions, extracted statistics, responsible for correspondence with authors to obtain unpublished data;
- Showcased independence, self-sufficient planning and independent decision-making
- Strengthened academic writing and co-authored sections of the final manuscript

Political Institute π , Czech Republic June – July 2023

- Commissioned to independently author a [handbook on the psychology of misinformation](#) for Czech policy-makers
- Translated research into evidence-based policy recommendations; strengthened writing skills and the ability to communicate research findings to lay audiences

Masaryk University, Department of Psychology 2022 – 2023

- **Experiment Administration**, Virtual Reality & Cognition Study, Masaryk University
 - Obtained practical experience in experimental research design and the execution of a study focused on the assessment of psychological performance tests in virtual environments (VR)
 - Managed the complete experimental pipeline: participant recruitment, data collection and technical troubleshooting of VR hardware and computer-based psychometric tests
- **Experiment Administration**, Speech & Stress Experiment, University of Technology, Brno
 - Recruited, guided, and debriefed participants in a lab experiment examining speech production under induced physical stress during performance tasks
 - Independently administered a psychologically demanding experimental protocol, with particular responsibility for thorough participant debriefing
 - Gained experience in collecting and managing multimodal physiological data, including ECG, electrodermal activity, and synchronized audio and video recordings
 - Co-authored dataset published in [Nature Scientific Data](#)

Education

University of Zürich, Freemover and SEMP Exchange Program Sept 2025 – present

- **Fall semester 2025:** Exchange semester at the Department of Sociology, funded by individual Freemover stipend
- **Spring and Fall semester 2026:** SEMP Traineeship exchange for writing Master's thesis research supervised by Prof. Johannes Ullrich, Department of Social Psychology

Master in Psychology, Masaryk University 2023 – present

- **Notable modules:** Clinical Psychology of Adults and Children, Clinical Neuropsychology, Psychological Assessment, Psychiatry, Psychotherapy, Applied Work Psychology
- 400 hours of supervised clinical and applied practice (in psychiatric hospitals, children's counselling centres, individual therapy practices and social care centres)

- **Notable modules:** Large Language Models for Sociological Research (UZH), Migration and Migrants (UZH), Introduction to Research Data Management (UZH), Demography, Sociology of Stratification and Inequality, Urban Sociology, Classical Sociology, Methodology, Quantitative Data Analysis

Bachelor in Psychology, Masaryk University

2020 – June 2023

- **Thesis:** Improving the ability to discern misinformation with active inoculation: gamified approach and its validation on the Czech population
 - Graded A; Developed and experimentally validated gamified intervention for building resistance to misinformation
- **Notable modules:** General Cognitive Psychology, Developmental Psychology, Psychopathology, Physiology of the Nervous System, Psychometrics, Quantitative and Qualitative Methodology, Statistics

Secondary School of Art and Design, Brno

2015 – 2021

- Program Motion Design; Graduated with honors, regularly featured in the annual school's distinguished graduates exhibition

Non-Academic Professional Experience

Organizational Psychologist, Motivation Labs

2024 – 2025

- Involved in the full consultancy pipeline: from designing client surveys, leading and mediating focus groups, to quantitative and qualitative data analysis and direct presentation of results to clients
- Ensured evidence-based practices grounded in the latest insights in organisational and work psychology focused on employee well-being
- Significantly contributed to the improvement of internal protocols, developed presentation skills, gained and applied understanding of diverse work environments, roles, and institutional constraints, from technology companies and university administration teams
- Led company rebranding: independently designed company [website](#) and a suite of visual promotional materials

Graphic designer, [STEEZY Studio](#)

June – December 2021

- Developed complete brand visual identities for clients, including logo design, typography, and brand guidelines; collaborated with client marketing teams

Extracurricular Activities

Article for A2 Magazine

January 2025

- Building on research from my bachelor's thesis in sociology, I published the article "[Yet Another of the Many Love-Letters: Disco Elysium and the Possibilities of Game Narration](#)" in the cultural-critical magazine A2, as part of a special issue exploring the intersection of literature and sociology

Event organization, Inattentive Friday Educational Mini-Conference, Kino Art, Brno

March – May 2024

- Co-designed program structure for neurodiversity-focused educational event; recruited and coordinated speakers from clinical psychology and education, coordinated venue and promotional outreach
- Personally awarded and managed a 20,000 CZK Rector's scholarship from Masaryk University

Invited speaker, Inattentive Friday Educational Mini-Conference, Kampus Hybernská, Prague

January 2024

- Delivered public lecture on diagnostic and symptom overlap between ADHD and Autism Spectrum Disorder for

a non-specialist audience

- Gained experience in public speaking, science communication and public engagement

Skills and Certificates

Research Methods

- Systematic literature reviews and meta-analyses (coding, synthesis)
- Experimental design, administration, participant guidance and debriefing; digital and biometric data collection (ECG, electrodermal activity)
- Qualitative methods: grounded theory, thematic analysis, conducting semi-structured interviews and focus groups
- Quantitative methods: survey design, testing, and dissemination; quantitative data analysis

Technical Skills

- Data analysis in R, JASP and SPSS: data cleaning, visualization, and statistical testing
- Large Language Model-based text analysis in Python and R; prompt design; local and cloud-based models (e.g., OpenAI, Gemini, Llama APIs)
- Research data collection, management, and documentation; reproducibility practices and data repository publishing (UZH course)
- Graphics software: 3D animation and modeling (Cinema 4D, Maya), node based programming environments (Touchdesigner), and Adobe Creative Suite (After Effects, Premiere Pro, Photoshop, Illustrator and Adobe XD)
- Volunteer Wikipedia editor

Teaching and Communication

- Course “Start! Teaching Beyond Studying” (University of Zurich)
- Basics of Psychological Coaching (24 hours; Praktická Psychologie, Brno)

Language proficiency:

Czech (native), English (C2 Cambridge Certificate), French (A2)
